SENATE AND HOUSE

Programme of the National Lawmakers For the Present Week.

EARLY ADJOURNMENT EXPECTED

Dupont Election Case to Be Revived in the Senate—Indian Appropriation Bill May Be Disposed of—Missionaries in Turkey Who Abide by Law and Order Will Not Be Persecuted.

WASHINGTON, April 13.—The Dupont election case was reviewed in the senate today when Senator Chandler made a speech in support of the committee report favorable to seating Mr. Dupont. He was then followed by Senator Gray in opposition to the report. This matter consumed the greater part of the day. The remainder of the time was given to the consideration of the Indian appropriation bill. There will then be an effort to go on with the Indian bill until it shall be disposed of, but there are several special orders on the calendar for the week which may interfere more or less with this programme. There is a unanimous agreement to take up Senator Peffer's resolution for the investigation of the bond issues for the past two years tomorrow. If not set aside the question probably will give rise to a spirited financial debate of uncertain duration. The bill to reduce the cases in which the death penalty may be imposed in the United States is a special order for Wednesday. Senators Lodge and Nelson have given notices for speeches on Thursday on the immigration bill reported by Mr. Lodge from the committee on immigration.

MISSIONARIES WILL BE SAFE.

All That Is Asked Is For Them to Observe the Laws of the Country.

WASHINGTON, April 13.—The Turkish legation has received from the sublime Porte the following cablegram: "It has been falsely stated that the missionaries would be expelled. The imperial government has not taken and does not intend to take any general measure of expulsion of missionaries and Catholic priests. Those among them who attend peacefully to their business are not and will not be disturbed. But, surely, it cannot be the same for those who by their attitude try to disturb the order and tranquillity of the country and place themselves in open hostility to the laws and regulations in force in the empire. The imperial government, watchful of the maintenance of public security, has the duty to send them away from its territory and in so doing it avails itself of a right which in all justice nobody could contest."

WORK OF THE HOUSE.

What the Lower Branch of Congress Will Do This Week.

WASHINGTON, April 13.—The general deficiency appropriation bill—the last of the supply bills—is in process of preparation in the appropriations committee, and pending the reporting of that bill to the house a variety of matters, which have been held in abeyance in order that the appropriation bills might not be pressed, will be brought up for action. The most important of these is the bankruptcy bill, to which it is expected the house will devote several days. There are also several minor banking bills, including a bill to increase the circulation of national banks to the par value of the bonds deposited, and one or two general pension bills. Today is District of Columbia day, but district matters will occupy but a short time and it is expected that the fortification bill, which is on the calendar, will be passed before adjournment tonight.

AN EARLY ADJOURNMENT.

Enough Work Done, It Is Said, to Merit Such a Procedure.

WASHINGTON, April 13.—An unusually early adjournment of congress is being predicted by the Republican leaders in both house and senate. Every sign points to the fulfillment of their prophecy. No congress in many years has made the record for the transaction of routine business which stands to the credit of the present one, so far as the lower house is concerned, at any rate. With all of the regular appropriation bills, except two, already passed by the house, with only one day or two of debate, and with the other in process of preparation, the house is placing the limit to this session at the first of June, as they think, sufficient time for the senate to take care of the important bills sent to it from the house.

Demand an Investigation.

WASHINGTON, April 13.—Robert Bonney, an American citizen, was murdered in San Salvador March 28, and as a result the state department has demanded the fullest investigation. The case was brought to the attention of the United States officials by Congressman Marsh of Illinois, who had received information from a reliable source that Bonney had been murdered.

MINERS MAY STRIKE.

Delegates Selected to Make a New Seal Are Dismissed.

BRAZIL, Ind., April 13.—The action of a number of miners' lodges in the block coal district indicates a strike, as they have dismissed the delegates previously appointed to select a committee to confer with the operators relative to a mining scale. These miners claim that the operators will have to modify the proposition they made last Saturday, inasmuch as they stated that they would not pay over 70 cents a ton, even if the Pennsylvania scale went to \$1. The miners also say they will not sign the scale proposed by the operators unless they have a benefit in the raise in the same proposition, granted in competing fields.

Canal Work to Be Begun Soon.

JOLIET, Ill., April 13.—Work will be commenced at section 15 of the drainage channel, at Lockport, in a few days. A large number of the men who will be employed on the controlling works on that section are already in Lockport.

Ex-Senator Ingalls Sick.

ATLANTA, Ga., April 13.—Ex-United States Senator John F. Ingalls is sick, abed at his home here suffering from a severe cold contracted on a recent trip north. His friends appear worried over his condition, but his family state that nothing alarming is anticipated.

shake

We do not mean a shake of the hands; but a genuine malarial chill. Quinine is the best remedy for this. Yet when the chills have ceased, there remains a debilitated system, with loss of appetite and poor blood. For this condition take **Scott's Emulsion of Cod-liver Oil, with Hypophosphites.** The cod-liver oil is a valuable food, furnishing needed elements to build up the tissues. It also makes rich blood, bringing back color to the cheeks. The Hypophosphites increases the appetite, and gives vigor and strength to the nervous system.

When you ask for Scott's Emulsion and salmon-colored wrapper with the picture of the man and fish on it—you can trust that man?

Received a letter from Circuit Judge Bonney of Quincy, Ill., saying that his nephew Robert Bonney was engaged in business near Sonowate, San Salvador, and the statement had reached him that his nephew had been killed.

AN IOWA MURDERER.

Shoots His Father-in-Law and the Latter's Two Children.

NEW HAMPTON, Ia., April 13.—Herman Boak, a stonemason of this city, yesterday shot and killed Mike Bartz and fatally wounded the latter's son and young daughter. Boak is a son-in-law of Bartz, who lives three miles from town. Boak's wife recently secured a divorce from him. He laid in wait in the bush for them while they were on their way home from church and discharged both barrels of a shotgun at them at short range. The girl will die, and it is thought the boy will. Boak mistook the girl for his wife. He came to the city and gave himself up immediately after the shooting.

INGERSOLL'S SERMON.

What He Said to the Militant Church Congregation.

CHICAGO, April 13.—Colonel Robert G. Ingersoll spoke before the militant church congregation yesterday in response to an invitation extended by the pastor, the Rev. John Rusk. He was greeted by a large audience.

"There is no darkness but ignorance," was the opening sentence of the address by the noted orator, who from the outset argued forcefully for intellectual development. He contended that "every human being is a necessary product of conditions, and every one is born with defects for which he cannot be held responsible. Nature seems to care nothing for the individual, nothing for the species."

His argument for the betterment of mankind was directed against war and the preparations therefor, which were accomplished at a waste of \$10,000 a minute, a fund which if used in another direction would result in great good. Churches also are conducted at too great an outlay. For correctness he suggested the laying aside of dogmas and creeds and the formation of one general place of worship in towns of four or five thousand people. He thinks there should be but one church in such towns, and that this should be devoted to all forms of amusement, including theatricals, music, billiards, cards, etc. He would lessen crime by making schools of the penitentiaries and would put dangerous criminals on some isolated island, separating the sexes.

The problem of the home, the labor question and education of the children were themes which were daringly handled. The accomplishment of all he expected was not expected soon, he said, but a step in that direction would be for those earning a surplus in life's conquest to devote a part thereof toward rescuing the fallen, helping those who are helping themselves and to give work to the idle. "Let us flood the world with intellectual light," he said in concluding.

Woman Murderer Escapes.

WHITEHALL, Ill., April 13.—Fulton F. Worcester, lumber dealer and leading citizen, was shot twice with a revolver yesterday morning by a burglar in his bed chamber. The burglar then jumped out the window and escaped. Bloodhounds were brought from Jacksonville, but so many people had visited the scene of the shooting that no definite starting point could be found. Seven other houses were entered but nothing of value procured. Mr. Worcester is suffering much pain, but it is thought that his injuries will not prove fatal.

Weather.

Indiana and Illinois—Fair, followed by showers; cooler.

WILL THEY INSTRUCT

Probable Issue in the Republican State Convention.

MCKINLEY FRIENDS AND ANTS.

Former Determined to Work For an Instructed Delegation, While the Latter Will Oppose—This Question to Over-shadow the Gubernatorial Nomination, Length of the Convention.

INDIANAPOLIS, April 13.—Ordinarily it would be expected that candidates before a state convention for nomination as governor would make the liveliest and prettiest political battle imaginable. Last week there were 15 aspirants, but Mr. Gardner of Davis county has withdrawn. But there are signs that this contest is not to be the "storm center" in the Republican state convention, which is to meet here May 7. The battle royal, by the admissions of several different leaders, is to be fought out between the McKinley supporters and the anti-McKinley element.

The former say the sentiment of the party in the state is so strongly in favor of the Ohio man that instructions ought to be issued to every delegate to vote for him, first, last and all the time. They unequivocally assert that there is not the shadow of excuse for belief that the convention may turn to Harrison, as the ex-president has already given sufficient discouragement to such action and would in all probability go further if he thought there was need to do so. They call the Harrison talk buncombe, in fact, and say his name has been revived as a hope for steaming the tide already set in for McKinley.

The McKinley opposition want to know how the Indiana delegates would feel with their hands tied if the Ohio man should fall of nomination. Such a delegation, they say, might as well stay at home. It is also argued that to instruct would be a reflection upon the intelligence and honesty of the delegates to be chosen, who ought to be in a position to take advantage of any situation that may arise and could be turned to the advantage of Indiana. They say they do not object to the selection of the recognized friends of McKinley and are willing that such men should be sent to St. Louis to support the "apostle of protection," but insist that an exigency might arise wherein the privilege of casting the vote for some one else would be especially desirable, all the time hinting that the some one else may be Benjamin Harrison of Indiana.

Expect to Offer Resolutions.

The McKinley people have decided to offer resolutions of instruction to the state convention. The other element is determined to oppose the consummation of such a move. Both sides are at work marshaling forces. It is well for all hands to prepare for the issue.

The length of this struggle, accompanied by the lively contest for place at the head of the state ticket, will determine whether or not the convention will be in session one or two days. For making the rest of the ticket there will not be a great length of time required, as, with possible one or two exceptions, the nominations not made by acclamation will be decided on the first ballot, as in most cases there are but two contestants. It is generally recognized, however, that the last convention made a serious mistake in holding a continuous session, running well into the morning of the next day. If there are appearances of such a condition again there is no doubt that a recess will be taken until the morning of the 8th, and it is being urged in many quarters that delegates come prepared to stay in the capital until the business of the convention may be properly concluded.

SILVERITES WIN.

State Convention, However, Expected to Declare For Sound Money.

MONTGOMERY, Ala., April 13.—Further reports from Saturday's primaries confirm the nomination of Joseph F. Johnston of Jefferson county, free silverite, over Clarke, sound money advocate. It now appears that Johnston will have 374 delegates in the state convention out of 504, though there is some dispute about one or two of the counties. It is believed, however, the state convention, which meets here on the 21st,

will elect him.

A man's life may be saved in many ways. A man may commit suicide in a great many ways. Shooting himself through the head is quicker, but it is no more certain than neglecting his health. If a woman saw her husband with a pistol to his head, she would take prompt and vigorous measures to save him; but the same woman might see her husband on the down-grade to disease and death without seeing the seriousness of it. One-sixth of all the people who die, die of consumption. Consumption doesn't come all at once. It is insidious. The seeds of it are seemingly insignificant. Most people do not know how it starts. Thousands of people are on the road to consumption and don't know it. When there is loss of flesh—paleness—wasting away—look out. Consumption easily finds a foot-hold in a weakened body. Low vitality, impure or poor blood, imperfect digestion, nervousness, sleeplessness—all these lead to consumption.

Taken in time, Dr. Pierce's Golden Medical Discovery will prevent the development of the disease. Taken according to directions, it will positively and perfectly cure ninety-eight per cent. of all cases of consumption, whether incipient or fully developed. Consumption is a disease of the blood. The "Golden Medical Discovery" is a cure for all blood diseases, no matter in what part, or how they manifest themselves.

If you want to know all about it, and what it has done for other people, send twenty-one (21) one-cent stamps to cover the cost of mailing only for a FREE COPY of Dr. Pierce's great 1008 page work, "Common Sense Medical Adviser." STORM STRIKES DENVER.

Railway Traffic Suffers Much Inconvenience by Its Appearance.

DENVER, April 13.—The storm of last night was the most disastrous to railway traffic of the winter. Little snow fell in Denver, but the trains on all roads running into the city have been delayed, and the Union Pacific, Denver and Gulf was obliged to annul all its trains on the southern branch. The train from Fort Worth got no farther than Trinidad. News of almost unprecedented snowfall comes from all points south of here in Colorado and northern New Mexico.

Storm at Cripple Creek.

DENVER, April 13.—The afternoon train over the Florence and Cripple Creek road is stalled between here and Anaconda. One of the suburban trains from Victor is stuck in the snow at Elkton. On the Midland Terminal two passenger trains are blocked at Gillett. A dozen buildings or more were blown down at Gillett and a number at Altman, Goldfield and Victor. Shaft-houses and surface improvements all over the district were badly damaged.

VESSEL OVERDUE.

Men and Shipping Material Suffering on the New Foundland Coast.

ST. JOHN'S, N. F., April 13.—Twenty-eight men were driven off shore on the ice Saturday night. Two steamers which have been searching for them returned last night unsuccessful. One man landed last night and supposed the others were ashore. The steamer Kite from the seal fisheries yesterday with a full cargo reports all the remaining ships but the Ranger. The latter has not been heard from since March 20, when it was learned that she was badly nipped and very leaky. Pears are now being expressed for her safety. She had over 200 men on board.

ALABAMA LYNCHING.

Citizens Decide Not to Wait for the Law to Do Its Duty.

SEALE, Ala., April 13.—Reddick Adams, who was in jail charged with the murder of R. F. Renfro, a prominent merchant of this place, was taken from jail last midnight by a mob and hanged. The crime for which Adams was lynched was committed last November. The negro waylaid Mr. Renfro, killed him and then robbed the body, afterward burning Renfro's house. Adams was tried last week, but his case was continued and the citizens fearing he would be acquitted decided to lynch him.

Married a Blind Pugilist.

CINCINNATI, April 13.—Frank Maciewski, the pugilist, and Clara Weber were married yesterday. While Maciewski and Miss Weber were walking on the street some months ago Frank Coleman, a colored pugilist, who had a grudge against Maciewski, made an uncomplimentary remark about the woman, Coleman was prepared for Maciewski resenting the insult, and threw concentrated lye in the latter's face, also burning Miss Weber. Maciewski languished some weeks in the hospital, becoming blind and disfigured. Miss Weber has been his constant attendant during his affliction.

Honors For Royalty.

VENICE, April 13.—The stately ceremonies incident to the visit here of the emperor and empress of Germany continue and the interest and friendly enthusiasm of the people is unabated. The city is in festive attire and nothing could exceed the brilliancy of the color effects of some of the decorations of the houses and of the innumerable floating craft.

Fatal Stabbing Affray.

CHICAGO, April 13.—Louis Miller was fatally stabbed yesterday by William Hite, colored, at a lodginghouse at 45 Plymouth place. Hite was locked up at the central station and Miller taken to the county hospital. Miller is 26 years old and has been a night watchman in Chicago for a long time.

WOMEN'S VOTES THROWN OUT.

Complication in the Peru and La Salle High School Election.

PERU, Ill., April 13.—The township high school election in this city and La Salle brought out the largest vote ever polled at a school election in this locality. The proposition to build the school, favored by the La Salle half of the township, was sustained by a majority of 194 votes. The affair is not, however, without complications that may yet develop. The school, mainly because of the fact that the women voted at the election, separate ballot boxes being provided. These votes were thrown out on the final count, whereas many are contending that they were lawfully polled and should be counted. It is certain that the women are entitled to vote for school officers, but as to their power to vote where an appropriation is required, no test has been made in the higher courts of the state. A test case arising out of this complication is probable.

Would Not Be Dared.

SHELBYVILLE, Ind., April 13.—Yesterday William Bruce, colored, was walking on North Pike street carrying a rifle, while Joseph Tracey and one or two other boys were tantalizing him from the other side of the street. Finally one of them dared him to shoot at the party. To their astonishment Bruce drew the gun and commenced shooting. The result was that Tracey fell to the sidewalk with a bullet through his left lower limb, which will make him a cripple for life.

St. Louis Dogcatcher Convicted.

ST. LOUIS, April 13.—John Rapp, the dogcatcher charged with murder in the first degree, was found guilty of manslaughter in the fourth degree in Judge Edmund's court yesterday and sentenced to two years in the pen. On Oct. 15 Rapp shot John Hopper, 16 years old. The boy died from the effects of his wound Jan. 5. Rapp claims that Hopper had thrown stones at him while he was driving by on his wagon.

May Be a Murder.

CHICAGO, April 13.—William McClellan fell out of a 2-story window at a lodginghouse at 74 Van Buren street and was fatally injured. Just how the accident occurred is not known, and the police are investigating it. Several men are said to have been in the room at the time.

Lost the Indictment.

OTTAWA, Ill., April 13.—George K. Goulding, wanted in a number of places for alleged swindling, has been released here, the indictment upon which he was held having been stolen from the court-house.

THE BEST SPRING MEDICINE

Is SIMMONS' LIVER REGULATOR—don't forget to take it. The liver gets sluggish during the winter, just like all nature, and the system becomes choked up by the accumulated waste, which brings on Malaria, Fever and Ague and Rheumatism. You want to wake up your liver now, but be sure you take SIMMONS' LIVER REGULATOR to do it. It also regulates the liver—keeps it properly at work, when your system will be free from poison and the whole body invigorated. You get THE BEST BLOOD when your system is in A1 condition, and that will only be when the liver is kept active. Try a Liver Remedy once and note the difference. But take only SIMMONS' LIVER REGULATOR which makes the difference. Take it in powder or in liquid already prepared, or make a tea of the powder; but take SIMMONS' LIVER REGULATOR. You'll find the RED Z on every package. Look for it.

THE REPUBLICAN PLATFORM.

The following plank in the National Republican platform adopted at the convention held at Minneapolis, Minn., in 1892, on the silver question, is good enough for any true American to stand upon, it seems to us:

The American people, from tradition and interest, favor bimetalism, and the Republican party demands the use of both gold and silver as standard money, with such restrictions and under such provisions, to be determined by legislation, as will secure a maintenance of the parity of value of the two metals, so that the purchasing and the debt-paying power of the dollar, whether of silver, gold or paper, shall be at all times equal. The interests of the producers of the country, its farmers and its workmen, demand that every dollar, paper or coin, issued by the government shall be as good as any other. We commend the wise and patriotic step already taken by our government to secure an international conference to adopt measures which will insure a parity of value between gold and silver for use as money throughout the world.

This year will be noted for the great scarcity of candidates for nomination on the Democratic ticket.

RHODE ISLAND declares for Thomas Brackett Reed and sound money, but her delegates are un-instructed—which is a tip that somebody wants to get into the band wagon.

When the republicans were in power the democrats complained that surplus money was accumulating in the treasury. And now that there is a constantly growing deficit they are not satisfied. Some people are hard to please!

SPAIN may as well understand that our government has no designs upon Cuba. We do not need the territory, nor do we much desire it, but situated so near to the island, it is only natural that we should be friendly to the struggling patriots and that our people desire to see Cuba free, even as we are free in this country. Not hostility to Spain but friendliness toward Cuba prompts our action.

OHIO women threaten to retaliate on the men by asking the legislature to pass a bill fining every man who goes out of a theater between the acts, and also every one who spits tobacco juice on the floor.

With good men in the city the council who do business for the city on the same sound business principles that they observe in their own affairs city finances will be kept in good condition. Such men have been nominated on the republican ticket.

OHIO democrats are going through the formality of holding a convention at Columbus, June 23. Why not resell off nominations for delegates to Chicago to somebody who can pay the expenses? Senator Brice might be worked and it doesn't make any difference who goes, anyway.—Commercial Gazette.

SPRINKLING OF THE CANDIDACY OF Hon. Chas. F. Remy for the republican nomination for reporter of the supreme court, the Madison Courier says: "Mr. Remy is an able lawyer, an eloquent speaker and a popular citizen. He should have the support of Jefferson county and the whole fourth district in his aspiration."

A SENSIBLE wife, and Seymour is full of them, always watches the advertisements in the home newspaper of responsible merchants, grocers, milliners and dressmakers and so on. She knows she can save money in this way and she goes straight to those dealers who tell her what they have. Business men will be able to see the moral of it.

Power from the great dynamos of the Niagara Power Company will be transmitted into New York City, over 400 miles of wire, on May 5. The longest distance that electrical power has ever been carried is 110 miles and that in Europe. The Bell Telephone Company will have a telephone arrangement by which the roar of Niagara can be distinctly heard in the metropolis. Thus, step by step, science is annihilating distance.

NATIONAL bank circulation outstanding on April 1 amounted to \$21,227,805, which represents an increase of \$4,134,340 for the month and \$18,777,661 for the year ending therewith. The portion of the circulation based on the deposit of bonds amounted to 199,723,005, which represents an increase of \$3,674,051 for the month and of \$19,875,622 for the year ending therewith. The portion of the circulation based on the deposit of lawful money amounted to \$21,504,800 which represents a decrease of \$539,711 for the month and of \$6,067,961 for the twelve months ending there with.

THE REPUBLICAN have now nominated in seven of the congressional as follows: First, J. A. Hemenway; Second, Alexander Hardy; Fourth, Marcus R. Sulzer; Ninth, Charles B. Lancia; Eleventh, George W. Steele; Twelfth, J. D. Lighty. April 16 the party will hold conventions in the fifth, sixth and seventh districts. The fifth district will probably renominate congressman Faris; the sixth congressman Johnson, and the seventh congressman Overstreet. The eighth district convention will not be held until May 20, the tenth district will hold its convention June 4, the thirteenth will nominate June 9, and the third will choose a candidate July 13.

GOVERNOR MCKINLEY is the only private soldier who shall have ever been nominated for the presidency by any party. If he is elected he will be his own successor in 1900 and will be the last one of the 1,000,000 Union soldiers who fought in defense of the country and the flag who will ever be nominated and elected president by any party in this country.

The fact of Governor McKinley's having been a private soldier, enlisting in 1861, serving in the ranks for several months until for meritorious service he was promoted repeatedly until at last at the close of the war he was discharged as major, is in itself an inspiration to all patriotic people.

OUR CANINE FRIENDS.

The greyhound appears on the oldest Egyptian monuments. In Ireland there are 4 packs of stag-hounds with 100 couples. In Siberia the Russian greyhound is used for tracking fugitives. In 1531 a great dog show, among the first of the kind, was given in London. The remains of fossil dogs have been found in Switzerland, Italy and France. Sir Walter Scott's two favorite dogs were Maids, the deerhound, and Hamlet, the greyhound.

According to the Mosaic law, the price of a dog was not allowed to be brought into the treasury as an offering. Cornelius Agrippa had a dog so smart that it was generally believed that the animal was an incarnated spirit.

The Poe dog of the south sea islands lives on vegetables and grass and is highly esteemed by the natives as an article of food.

A peculiar Maltese spaniel sometimes represented on the Roman monuments is mentioned by Strabo as the "Canis Melitensis."

In the bulldog the condyles of the lower jaw are above the line of the upper grinding teeth, causing the hold of this animal to be very severe.

Naturalists say that all dogs are traceable to wild animals of the same family—the arctic dogs to wolves, the African Indian dog to the coyote, the American dog to the jackal.

On the oldest monuments of Egypt, executed over 5,000 and perhaps nearly 6,000 years ago, there are representations of dogs closely resembling those now existing in that country.—St. Louis Globe-Democrat.

TURF TOPICS.

Sunbeam has thrown a fine filly foal to Troubadour.

Capella, a fast pacing 5-year-old son of Sphinx, is being jogged.

The deadlock in the legislature of Kentucky effectively killed the Grazing bill.

The starting machine is to be given a trial at Benning. It will also be used at Memphis.

All the big tracks lost money last year, and the deficits were larger than is generally believed.

Colorado Springs is out with a good programme for a trotting meeting to be held May 30 to June 4, all purses \$500 each.

A number of wealthy horsemen have leased the fair grounds and race track in Montgomery, Ala., for a term of years.

"Snapper" Garrison, the jockey, is in training at Marlborough, Ulster county, N. Y., where he will remain for several weeks.

The time is not far distant when each fox hunting club or hunt will have its own district mapped out for it, as they have in England.

There is no fear of a scarcity of horses at the Benning meeting, but there will be very few high class horses in the all aged division.

The prize list for the Canadian horse show at Toronto provides for 71 classes, including 10 specials, and shows a total of \$5,310 to be given in premiums.

Fox hunting men who are also polo players are now turning their attention from their hunters to their polo ponies and getting them ready for the spring campaign.

THE FASHION PLATE.

Among the coming articles of apparel it is said that the jersey is again to be brought out. Especially will it be adapted for use on the wheel.

Pretty collarettes are made of wide Dresden ribbon passed once around the throat and finished with a bow and loops at the back of the neck.

A novel and pretty collar is made of white kid lined with satin. This is embroidered with colored silk and tiny pearl beads, and is lace edged.

It is confidently asserted that the decadence of the full skirt has set in, and that the next models will show none of the fullness in front which is so much objected to by many persons.

Spring jackets afford but few new suggestions. Some of the most stylish ones are double breasted, and have wide revers. Others are single breasted, with stand up collars that flare away from the front.

Spring bonnets are rather flat, and are trimmed high at the sides. Some of the new ones, of fancy braid, are extremely pretty, and with a little simple trimming make handsome and inexpensive headgear.

It is an understood fact among the best dressed wheelwomen that some sort of basque skirt is much more becoming than the plain round waist. Some of the handsomest suits have the basque skirts just long enough to reach to the saddle.—New York Ledger.

ODDS AND ENDS.

The Carlton club, London, has about 4,000 members, and is the richest in the world.

It is proposed to build an iron cage over and around the monument of Daniel Boone and his wife near Carrollton, Ky., in order to preserve what is left of the monument from the ravages of relic hunters.

The baggage mules used by the late Prince Henry of Battenberg will in future lead a life of ease at Osborne as pets of the Battenberg children. They are said to be peculiarly ugly animals and excessively lean.

Japan will not become a member of the international patent and trademark union until the new treaties take effect, which will be in 1899. At present there is no protection against the manufacture of foreign patented articles in that country.

When Baby was sick, we gave her Castoria. When she was Child, she cried for Castoria. When she became Miss, she clung to Castoria. When she had Children, she gave them Castoria.

The U. S. Gov't Reports show Royal Baking Powder superior to all others.

Wright's Celery Tea cures constipation, sick headaches, 25c at druggists.

Matilda Tnhar, Columbia, Pa., says:

"That Bearing-Down Feeling"

and dizzy, faint, gasping attacks left me as soon as I began to take Lydia E. Pinkham's Vegetable Compound. I was sick with womb troubles and I thought I never could get well."

Too Near the Tiger.

PENR, Ind., April 13.—John Murphy, engineer for the L. E. and W. railroad at Indianapolis, who is visiting in this city, made a visit to the winter quarters of the Wallace circus yesterday, and getting too near a den of tigers one of them grabbed him by the neck, tearing his coat and shirt and cutting a deep gash in his neck, narrowly missing the jugular vein. The enraged animal was beaten off with irons, and Murphy was rescued before the gaze of 200 frightened spectators.

Sandbagged and Robbed.

INDIANAPOLIS, April 13.—About 8 o'clock last evening James Magoritz, a farmer living near New Augusta, was assaulted by three men while passing along Highland street. The three men crept up behind him and one of them knocked him senseless with some heavy weapon, probably a sandbag. The foot-pads obtained only \$1.10, failing to find the watch which their victim carried. He was badly beaten, but will recover.

May Be a Murder.

KOKOMO, Ind., April 13.—Thomas Maple, a glassblower employed at the Swayzes works, was found dead this morning on the track of the Toledo, St. Louis and Kansas City railway near Sims. Circumstances indicate possible murder.

Harrison's Attend Church.

INDIANAPOLIS, April 13.—General and Mrs. Harrison attended church here yesterday. The beautiful weather encouraged many to attend services, and many eyes were turned upon the newly married couple.

SHORT WIRINGS.

Gala times still continue at the Greek festival at Athens.

Alexander McCallum, a stock breeder of Kingston, Ont., was gored to death by a bull.

Harry Wright day is being generally observed in baseball circles throughout the country today.

Colonel J. Martin of St. Louis has been chosen to be sergeant-at-arms to the Democratic national convention.

Maher and Slavin have been matched to fight before the Europa club, L. I., on May 20 for a purse of \$5,000 to be given to the loser.

Lavinia Jones, a colored servant 12 years of age, is under arrest at Norfolk, Va., charged with poisoning a family, one of whom is dead and four others very ill.

An unknown man about 40 years of age was killed in the railroad yards at Ora, Ill. The name S. Kyle Stephens was written on a paper found in his pocket.

A dynamite bomb was exploded under a hotel at Lithonia, Ga., where a number of nonunion laborers were stopping. No one was injured. It is supposed to be the work of union men.

Mrs. William Duke, aged 60 years, supposed to have died Friday, was found in her residence at Ashland, Ill. The only other occupant of the house was a 2-year-old child, who was locked up with the body.

Agnes Anderson has been arrested at Glenwood Springs, Colo., on a charge of exploding a charge of giant powder under the residence of James W. Ross. The house was totally destroyed, but the family of three escaped death.

Canal Work to Be Begun Soon.

JOLIET, Ill., April 13.—Work will be commenced at section 15 of the drainage channel, at Lockport, in a few days. A large number of the men who will be employed on the controlling works on that section are already in Lockport.

Spit In the Convention.

NASHVILLE, April 13.—The proceedings of the Republican congressional district convention of the Ninth district at Union City yesterday afternoon were boisterous and at times the delegates were a howling mob. The row began over the election of a chairman and was kept up and a split occurred, resulting in two conventions and each elected delegates to St. Louis and also endorsed McKinley.

The Sorcerer's Forecast.

Sir Henry Drummond Wolff, now English minister at Madrid, when accredited to Teheran, once consulted a Persian sorcerer as to the future of himself and several friends. When asked in regard to Arthur Balfour, the sorcerer said he would become a grand vizier. Lord Randolph Churchill, he declared, was suffering from a disease which would soon carry him off. "You," added the sorcerer, "will be ambassador at Constantinople." Sir Henry is now mentioned for that post.

Biggest Pine Tree in Wisconsin Falls.

What was believed to be the largest pine tree in Wisconsin was cut down a few days ago at Antigo. It was well known as a landmark. Several years ago the top was blown off, leaving the trunk standing. This trunk measured 22 feet in circumference, and proved to be 150 feet in length. It was 2 feet in diameter at the top. The full length of the tree was 260 feet. It required five grown persons to reach around it with extended arms.—Milwaukee Wisconsin.

During the winter of 1893, F. M. Martin, of Long Beach, West Va., contracted a severe cold which left him with a cough. In speaking of how he cured it he says: "I used several kinds of cough syrup but found no relief until I bought a bottle of Chamberlain's Cough Remedy, which relieved me almost instantly, and in a short time brought about a complete cure." When troubled with a cough or cold use this remedy and you will not find it necessary to try several kinds before you get relief. It has been in the market for over twenty years and constantly grown in favor and popularity. For sale at 25 and 50 cents per bottle. O. W. Milhouse, The Druggist.

TRAMPS AS ROBBERS

They Hold Up an Agent and Friend and Lock Them In a Car.

LITTLE GAIN FOR THE EFFORT.

Preparations Being Made For the G. A. R. Encampment—Watchman of the Tolleston Gun Club Accidentally Killed—Mysterious Death of Jacob Kuberka at Wellsboro—Indiana Notes of Interest.

SOUTH BEND, Ind., April 13.—R. R. McGladry, night agent of the Lake Shore and Michigan Southern railroad at Mishawaka, this county, and William Lamphere, a friend in the office with him, were held up early yesterday morning by two burly tramps. The agent had just received permission from his train dispatcher to leave the station for a short time and turning around peered into the barrels of two big revolvers. From Lamphere the tramps secured only \$1.25 and from McGladry \$3 and a fine pair of shoes. The only pocket in McGladry's clothes which they did not touch contained \$160, which he had recently drawn from a bank. The tramps then took \$11 from the till, stopped the clock and marched the two men to a boxcar, where they locked them in and escaped. McGladry and Lamphere remained prisoners until nearly daylight, when a train crew released them.

JUSTICE CAME QUICKLY.

Arrested and Sent to the Penitentiary Within an Hour.

MUNCIE, Ind., April 13.—John Miller was arrested Saturday afternoon at the Columbian hotel on the charge of larceny, he having stolen a number of articles from the proprietor's room. His arrest occurred at 2:30 o'clock. He was taken before the mayor, bound over to court, placed in jail and then taken before Judge Koons and at 3:10 o'clock was sentenced to one year in the penitentiary.

He came here Thursday from Chicago, where he has a mother and child. He stated that he was a machinist by trade, but from articles found in his trunk the police think that he is a professional crook. Among the articles was a great amount of silverware, on which "Marble hotel" was engraved. The quickness in which he received his sentence breaks all previous records. Sheriff Sherry left for the penitentiary with Miller at once.

GRAND ARMY PREPARATIONS.

List of Speakers Who Will Entertain the Old Soldiers.

SOUTH BEND, Ind., April 13.—The principal speakers for the annual encampment in this city on May 13 and 14 of the Indiana department, G. A. R., are: Commander-in-Chief Walker, Adjutant General Robbins, General James R. Carnahan, Dr. W. T. Stott, Henry C. Adams, Dr. D. R. Lucas, Hon. J. B. Cheadle and Dr. Daniel Ryan. The great reception campfire will be held on the evening of May 12, and the presiding officer will be General Carnahan. The presiding officers on the following evening at the several camp fires will be Department Commander H. B. Shively, Past Commander A. D. Marsh and Past Commander James T. Johnston.

Mystery Surrounds His Death.

LAPORTE, Ind., April 13.—Jacob Kuberka of this city was found dead on the Grand Trunk railroad track at Wellsboro, this county. How his death occurred is shrouded in mystery. He was waiting to take a train home, and as it was late he walked a short distance down the track, and that was the last seen of him until his dead body was found.

Will Be With the Marton Chronicle.

INDIANAPOLIS, April 13.—Walter K. Landis, who has been in this city several years as the correspondent of Cincinnati Commercial Gazette and on the local staff of The Journal, will leave the city this afternoon for Marion, where he will be with the Marion Chronicle, in which paper he has recently obtained an interest.

Gun Club Watchman Killed.

HAMMOND, Ind., April 13.—Richard B. Stone of Louisville, Ky., a watchman on the grounds of the Tolleston Gun club, was accidentally shot and killed. While pushing a boat in the river his rifle was discharged, the ball entering his right side and passing through his body.

The attendance at the Baptist Sunday school yesterday, was 145; collection \$1.85.

The attendance at the Presbyterian Sunday school Sunday was 144; collection \$1.61.

The Baptist church is being renovated throughout preparatory to putting down a very handsome carpet.

A Valuable Prescription.

Editor Morrison of Worthington, Ind., writes: "You have a valuable prescription in Electric Bitters, and can cheerfully recommend it for Constipation and Sick Headache, and as a general system tonic it has no equal." Mrs. Annie Stehle, 2825 Cottage Grove Ave., Chicago, was all run down, could not eat nor digest food, had a backache which never left her and felt tired and weary, but six bottles of Electric Bitters restored her health and renewed her strength. Prices 50 cents and \$1.00. Get a Bottle at Andrews and Co.'s Drug Store.

Six Miles from the Moon.

A voyage to the moon is the latest project which is seriously put forward as the crowning point of the Paris Exhibition of 1900. Monsieur Mantois, its author, does not propose to carry passengers to the lunar regions in an aerial car, but he expects to bring down the moon to the reach of people whose vision extends, say, six miles from the earth.

The plan is to construct a telescope nearly 200 feet long. The objective glass will have a diameter of something over 4 feet 3 inches, the largest in the world. The colossal tube will be placed horizontally, and the image of the moon will be reflected by what is termed a mirror plane 6 feet in diameter and 15 inches thick. The weight will be 8,000 pounds. The special feature of the idea is that the image of the moon shall be thrown upon a screen placed in a hall large enough to hold 600 spectators.

Astronomers calculate that with an apparatus of these dimensions it will be possible to discern easily objects of the size of the Notre Dame cathedral towers, and to distinguish the evolutions of a lunar regiment. Should the opening of the twentieth century be signalized by volcanic eruptions in the mountains of the moon, visitors to the exhibition would have a grand spectacle.—Popular Science News.

POLITICAL POINTS.

The Oregon delegates have been instructed for McKinley.

The friends of Ex-Governor Campbell, are extolling his virtues and emphasizing his fitness for the Presidency.

Anderson Piercefield, of Brown county, has a growing desire to be nominated for congress by the democrats of the Fourth district. Mayor Northeen, of Greensburg, has the same kind of a desire.

Senator Oullam, of Illinois, has withdrawn from the contest for the Presidency. In a letter to the chairman of the Republican State Central Committee he states that he desires to be loyal to the people of Illinois and since it is the desire of the party in the state to support another man than himself he will not be a candidate. A Washington special says: "The withdrawal of Oullam practically settles the question, and McKinley will be nominated on the first ballot."

An exchange has applied the X-rays to the Presidential situation and it looks like this:

Mayor Tom Taggart has intimated to some of his friends that he can see nothing but empty honor in the democratic nomination for governor and does not want it. No one else seems to care about it.

The list of republican candidates for the appellate court is growing each week. The announcements so far are as follows:

First district—Wood D. Robinson, of Princeton, and David E. Beem, of Spencer.

Second District—T. O. Batchelor, of North Vernon; D. M. Alephugh, of Salem, and William J. Henley, of Nashville.

Third District—Eugene Bandy, of New Castle, D. W. Comstock, of Richmond, and James M. Hatfield, of Huntington.

Fourth District—Richard R. Stephenson, of Noblesville, and James B. Black, of Indianapolis.

Fifth District—U. Z. Wiley, of Fowler, and D. R. Best, of Angola.

There was an unique temperance service at the First Baptist church last evening entitled "The Man Who Spoiled The Music."

It was the story of a man who once had a happy home with radiant, singing wife and children—even he himself being a singing, joyful nature; but who from drink had brought want, sorrow and desolation, had driven out and "spoiled all the music" of his once glad household.

But finally, becoming awakened to a realization of what drink had done and was doing, with God's help he resolved to throw off the yoke and bring back again to his home—to wife and children—the smiling faces and the music which he had spoiled.

The story was told by reading the lines with the frequent introduction of appropriate illustrative solos, duets and choruses, thus making the service largely a musical one, and also extremely effective, the whole of it being most satisfactorily rendered.

If a small bottle of Shaker Digestive Cordial does you no good, don't buy a large one.

"Provide all things; hold fast that which is good." It's not good for everybody, only for the thin, pale, sick, weak and weary. For those who are starving for want of digested food. For those who cannot get fat or strong, because their stomachs do not work as they ought to.

These are the people, millions of them, whom Shaker Digestive Cordial will cure. Food makes strength, muscle, brain, blood, energy—after it is digested. If not digested, it will do you no good at all.

Shakers Digestive Cordial helps your stomach to digest your food and cures indigestion permanently. When you've tried a small bottle, you can tell. Sold by druggists. Trial bottle 10 cents.

A GENERAL NEED.

The Herald has again at a again spoken of the necessity of a stone pile to be used in connection with the city or county, as a matter of economy. The people are put to a great deal of expense in trying men for misdemeanors, and then when convicted the expense is increased in order to go through the form of punishment. We say "the form of punishment," as indeed to many of the felons who are fined for misdemeanor and then put in jail until the fine is served out, being housed and fed, there is no return to the people for all this expense. Why should not there be? Why not have a stone pile and let or compel those worthless fellows to give something in return for their keeping? How is the community benefited by this expense to go through the form of punishment? It does not deter these fellows from committing public offenses again and again.

The same fellows are in again and again, and the warm comfortable quarters and wholesome meals have no terrors for them.—Columbus Herald.

Dr. Miles' Heart Cure Restores Health.

HEART DISEASE, has its victim at a disadvantage. Always taught that heart disease is incurable, when the symptoms become well defined, the patient becomes alarmed and a nervous panic takes place. But when a sure remedy is found, and a cure effected, after years of suffering, there is great rejoicing and desire to "let the whole world know." Mrs. Laura Winefinger, of Selkirk, Kansas, writes: "I desire to let the whole world know what Dr. Miles' Heart Cure has done for me. For ten years I had pain in my heart, shortness of breath, palpitation, pain in my left side, oppressed feeling in my chest, weak and hungry spells, bad dreams, could not lie on either side, was numb and suffered terribly. I took Dr. Miles' Heart Cure and before I finished the second bottle I felt its good effects. I feel now that I am fully recovered, and that Dr. Miles' Heart Cure saved my life." Dr. Miles' Heart Cure is sold on guarantee that first bottle benefits, or money refunded.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. CASTORIA

for Infants and Children.

MOTHERS, Do You Know

that Paregoric, Bateman's Drops, Godfrey's Cordial, many so-called Soothing Syrups, and most remedies for children are composed of opium or morphine?

Do You Know that opium and morphine are stupefying narcotic poisons?

Do You Know that in most countries druggists are not permitted to sell narcotics without labeling them poisons?

Do You Know that you should not permit any medicine to be given your child unless you or your physician know of what it is composed?

Do You Know that Castoria is a purely vegetable preparation, and that a list of its ingredients is published with every bottle?

Do You Know that Castoria is the prescription of the famous Dr. SAMUEL FITCHER. That it has been in use for nearly thirty years, and that more Castoria is now sold than of all other remedies for children combined?

Do You Know that the Patent Office Department of the United States, and of other countries, have issued exclusive right to Dr. Fitcher and his assigns to use the word "Castoria" and its formula, and that to imitate them is a state prison offense?

Do You Know that one of the reasons for granting this government-protection was because Castoria had been proved to be absolutely harmless?

Do You Know that 33 average doses of Castoria are furnished for 35 cents, or one cent a dose?

Do You Know that when possessed of this perfect preparation, your children will be kept well, and that you will have unbroken rest?

Well, these things are worth knowing. They are facts.

ABOUT ELEPHANTS.

BELIEF THAT THEY ARE ENDOWED WITH SUPERIOR INTELLIGENCE.

They Have Mental Qualities Not Possessed by Other Animals—Interesting Stories About Them—The First One Brought to This Country.

Elephants never go to sleep without leaving one of the herd awake to keep watch and give warning in case of intrusion. Go into the big menagerie tent of the show any night after the elephants have gone to sleep, or go into one of the elephant cars on a night row, and you will find that, no matter how quietly and stealthily you have entered, the eye of one member of the herd is upon you.

Conklin believes, as do most all elephant keepers, that the animal can understand what is said to it. Indeed, trainers assert that it has more intelligence than any other animal, and that it is the only one that can be taught to mind by word of mouth, without other cues. That it is endowed to a limited extent with reasoning powers is certain.

A German philosopher thinks he has discovered that this mental development is due to the fact that in the trunk the elephant possesses a prehensile organ similar to the hand of man. The hand, he asserts, has played a more important part in the development of the human intellect than any other agency, since it brings its possessor into more intimate relations with the external world than any other organ. Some menagerie man, with more practical observation than the German professor and a smaller bump of theorizing, has pointed out that the only flaw in this reasoning is that if it is correct the gorillas and chimpanzees ought to have a higher mental development than man, because they have four good hands instead of two, and any one of the four is stronger than the eight hands of four men.

Well authenticated stories of the sagacity of elephants are so numerous that it is never necessary to resort to exaggeration to say something interesting about them. In their wild state the leader of a herd has been seen when approaching swampy ground to extend one foot to try its solidity before trusting his weight to it. When satisfied of its firmness, he would go confidently on, and the whole herd would follow in single file, cautiously stepping in the footsteps of the leader, so that when the entire herd had thus passed the ground would look as if a single animal had gone that way. The same trait of caution is preserved in the domesticated animal. The action is not the result of training, but a brute instinct always displayed and bearing a striking resemblance to reason.

When Jumbo tried to butt a fast freight off from the Grand Trunk tracks in an effort to save the baby of the Barnum herd, Tom Thumb, and lost his life in the attempt, it was said that his action gave unmistakable evidence of reason, though it was poor testimony to his judgment that he so greatly underestimated the force of the locomotive.

In the matter of the food value of different materials the reasoning power of the elephant is very faulty, however. He will eat almost anything that comes his way. If a canvasman leaves a coat or vest hanging on a quarter pole with in reach of an elephant, the big brute will edge over toward it and watch an opportunity when unobserved to touch it with his trunk. Then he will begin to haul it toward him, putting in rolls of hay and chewing them between times. As soon as the garment is at his feet the elephant will put one of his ponderous five hooved pedals on it and begin to tear it up, rolling the pieces in his trunk and stuffing them into his mouth.

The sole of a shoe is just as good for him to chew on as a wisp of hay, and his natural instinct of mischief inclines him to prefer that which he knows is forbidden him.

The first elephant brought to America for exhibition purposes was Old Bet, and it has often been remarked that the American circus was built on her shoulders. Different accounts fail to agree in regard to the date of her importation, which is placed all the way from 1776 to 1889 by different writers of old time reminiscences. Old Bet was brought over in the ship America, of which Captain Crowningshield was master, and she landed, according to the harbor records, in Philadelphia in April, 1798. She was but 5 feet high, and the sum of \$10,000 was paid for her, the largest price that had been paid up to that time for any animal, either here or in Europe.

She was first exhibited in Philadelphia and astonished the public daily by drawing the corks from 80 bottles of beer and drinking the contents. On the 20th of June, 1799, she passed through New York on the way to Boston.

Old Bet had been bought on the community plan by a number of farmers of Putnam county, N. Y., at the instance of one Ludwig Bistadler, each mortgaging his farm and putting \$500 into the venture. They exhibited her under wagons shreds at hotels by putting a piece of skin on top in front of the shed. The admission was 25 cents for adults and 12 1/2 cents, or a York shilling, for children. This gigantic zoological institute, as the caravan was called, traveled east as far as Pawtucket, R. I., where the elephant, in spite of its docile disposition, was shot and killed. As the "institute" contained no other attractions the show closed. The same proprietors then imported a second elephant, which they also called Old Bet, and they enlarged their exhibition by adding to the collection a lion and a two horse cage and one monkey in a box strapped on to the hind end of the lion's cage. The second Old Bet landed in 1833. Following her to these shores the next pachyderm to arrive seems to have been Mogul, a very big fellow with long tusks, who was burned on the steamer Royal Tar between St. John's and Portland, Me.—Chicago Inter Ocean.

GENESIS OF A SONG.

HOW "IN THE SWEET BY AND BY" CAME TO BE WRITTEN.

Its Author Tells an Interesting Story of Its Composition—Within an Hour After the Idea Came Four Gentlemen Were Singing the Song.

In Richmond, a little town of less than 1,000 inhabitants, almost on the southern boundary line of Illinois, lives the author of "In the Sweet By and By." He is a practicing physician and is under 60 years of age. The immortal hymn was written when he was only 31 and is the single song of his life.

During the civil war a wave of moral elevation and intellectual activity passed over the country. In this grand awakening of the conscience there was a flood of music—martial, religious, domestic. George F. Root and Stephen J. Foster were both writing songs that lived, and Sunday school hymns passed out of the drizzling period into one of elevated simplicity.

Just at this time Samuel Fillmore Bennett was graduated from Ann Arbor, Mich., and began a newspaper career at Elkhorn, Wis., on The Independent. J. P. Webster, the musical composer, was living in the same town, and it was only a few months before the editor and the musician were collaborating. The war intervened, and Lieutenant Bennett of the Fortieth Wisconsin volunteers returned to Elkhorn to open a drug store and resume his verse writing. He and Mrs. Webster began in 1867 to work on a Sunday school song-book, called "The Signet Ring," which was afterward published.

This period of his life is the most precious of all his experiences to Dr. Bennett. Not long ago he told the whole story to an interested group of listeners, his eyes filling with tears as he vindicated his friend from calumnies:

"Currency has been given to the shameful story that Mr. Webster was drunk when he wrote the music, and another account has it that we were both drunks. I am thankful to do justice to one of the noblest men that ever lived—a fine, sensitive soul, with the true artistic feeling. Again, it has been said that we were both infidels, and the song the ribald jest of a carouse. As to my religion, that is my own affair, but the hope and longing of every immortal soul as expressed in that song were the faith of both of us. To both creation would have seemed a farce if infinite love and immortality had not overshadowed us and promised a life of bliss beyond the grave.

"Mr. Webster, like many musicians, was of an exceedingly nervous and sensitive nature, and subject to fits of depression. I knew his peculiarities well, and when I found him given up to blue devils, I just gave him a cheerful song to work on. One morning he came into the store and walked to the stove without speaking.

"What's up now, Webster?" I asked.

"It's no matter. It will be all right by and by."

"The idea of the hymn came to me like a flash of sunshine—"The Sweet By and By." Everything will be all right then. Why wouldn't that make a good hymn?"

"Maybe it would," he replied gloomily. Turning to the desk, I wrote as rapidly as I could. In less than half an hour, I think, the song as it stands today was written. Here it is:

"There's a land that is fairer than day,
And by faith we can see it afar,
For the Father waits over the way
To prepare us a dwelling place there.

CHORUS.
"In the sweet by and by
We shall meet on that beautiful shore—
In the sweet by and by
We shall meet on that beautiful shore.

"We shall sing on that beautiful shore
The melodious songs of the blest,
And our spirits shall sorrow no more—
Not a sigh for the blessing of rest.

"To our bountiful Father above
We will offer the tribute of praise
For the glorious gift of his love,
And the blessings that hallow our days.

"In the meantime two friends, N. H. Carswell and S. E. Bright, had come in. I handed the verses to Mr. Webster, a little tremulous with emotion. As he read it his eyes kindled. Stepping to the desk, he began to jot down the notes. He picked up his violin and tried them. In ten minutes we four gentlemen were singing that song. Mr. R. R. Crosby came in, and with tears in his eyes said, 'Gentlemen, that hymn is immortal.' We were all excited, elated. Within two weeks the children of the town were singing it on the streets.

"In 1868 'The Signet Ring' was published, the published distributing circulars to advertise it and on the sheets was 'The Sweet By and By.' On the strength of that one song nearly 25,000 copies of the book were sold. The song was afterward brought out in sheet music, and it has been translated into a number of foreign languages.

"Webster, Crosby and Carswell are all dead. S. E. Bright of Fort Atkinson, Wis., and myself are the only living witnesses to the origin of the song."—Louisville Post.

Downtrodden Mr. Glimmetton.

"Did anybody ever hear of anybody so downtrodden as I?" said Mr. Glimmetton. "If I go to the parlor window to look out into the street, and coming away, leave the curtain awry, as I am very apt to do, I hear my oldest daughter say, 'Twenty-five cents, and I have to pay it; it's a fine for not readjusting the curtains as they should be. What do you think of that for domestic tyranny? But it has its bright side. The money so collected goes to buy things that otherwise I would have to pay for, so perhaps it is just as well.'"—New York Sun.

Worse.

"Gussie, why did you refuse Smithett? Did he show the cloven foot?"

"No, but he showed the cloven breath!"—Detroit Free Press.

Where Disease
Is Bred.

When a sewer is clogged or choked up the accumulations poison the atmosphere in its vicinity and bring about the conditions that breed disease. We all know that in time of pestilence every precaution is taken, not only to keep the sewers free and open, but even to remove all decaying matter from the community. The danger of infection is thus minimized. How few of us who pay taxes for the maintenance of sanitary bureaus for the public health think of an equal requirement for our individual welfare. The alimentary canal is the great sewer of the human system. When that is clogged up conditions are generated which invite fevers and such diseases as our nature inclines to. Constipation is a clogging of the natural drains, and nearly everything we suffer from follows this condition. It will not do merely to clear the drains from time to time. We must repair and improve the working power of the machinery whose function it is to perform this work. SMITH'S BILE BEANS differ from pills in that they are more than a mere cathartic. They not only stimulate sluggish bowels and clear the system of all disease breeding matter, but they remedy the evil complained of; they restore power and freedom of operation to the secreting organs, and they tone up and strengthen the entire system. They are easy and soothing in action. Try them. 25 cts. a bottle, 50 cts. a dozen. For sale by druggists and medicine dealers throughout the country, or by mail, postpaid, on receipt of price. Ask for the "Small Size" (green wrapper or cartoon).

Take No Substitute for
Bile Beans.
